

Sunset Meadow Section

This newly developed area is designed with wider grave spaces to accommodate oversized grave liners, and larger monuments. There are limited spaces that allow for a tree to be planted in close proximity.

Flat Marker Section

This area preserves its park-like setting by only allowing flat markers. Lots may be used for individual burial and/or interring cremated remains.

Shared Monument Section

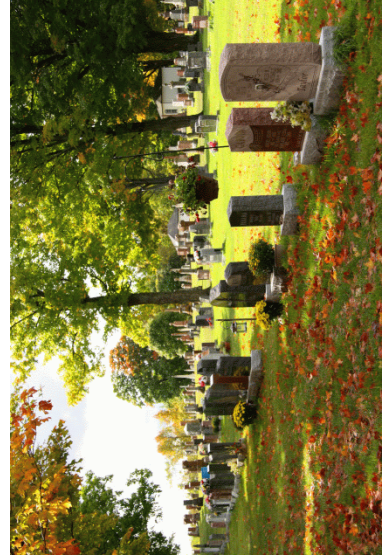

This economical alternative allows for an upright monument to be shared by two different families. This requires a minimum purchase of two lots on one side of the memorial, and half the total cost of the monument.

Traditional Monument Section

Each double lot is allowed one upright memorial placed at the head of the graves. Single lots in this area are allowed a flat marker only.

Special Monument Section

The single row closest the highway is designated as the Special Monument Section where single grave lots are allowed an upright memorial. The width of the monument is regulated so it does not encroach onto an adjoining lot.
