### Sunset Meadow Section

This section was designed with wider grave spaces to accommodate oversized grave liners and larger monuments. Single grave lots are allowed an upright memorial however the width of the monument is regulated so it does not encroach onto an adjoining lot. Lots may be used for one, single depth casket burial and/or interring cremated remains.

### Flat Marker Section

This area preserves its park-like setting by only allowing flat markers. Lots may be used for one, single depth casket burial and/or interring cremated remains.

### Shared Monument Section

This economical alternative allows for an upright monument to be shared by two different families. This requires a minimum purchase of two lots on one side of the memorial, and half the total cost of the monument. Lots may be used for single depth casket burial and/or interring cremated remains.

### Traditional Monument Section

Each double lot is allowed one upright memorial placed at the head of the graves. Single lots in this area are allowed a flat marker only. Lots may be used for single depth casket burial and/or interring cremated remains.
